"This new CD is a classic in many ways."

The Fevered Brain of Radio Mike

Gregg Swann's latest CD "Everybody's Got To Be Somewhere" is full of bittersweet pop songs that hearken back to the days when bands kept it simple in the studio: guitars, drums, bass and an occasional piano. The stripped-down approach recalls Tom Petty's early 90s output or Paul Westerberg before he disappeared into his basement. There are plenty of driving, hook-laden anthems and wistful ballads tinged with hope and regret. But, it's the clever turns of phrase and Swann's penchant for dreaming out loud that make a lasting impression on "Everybody".
